A+ Interactive iProjectors

Interactive iProjectors from ViewSonic

ViewSonic delivers top of the class interactive iProjectors for any application, classroom size or budget. Our iProjectors are about **1/3 the cost of a traditional interactive white board,** provide mobility with ease and have a longer lifespan than whiteboards, saving you money in the long run. iProjectors have a lower lamp cost and are top loading for easy lamp replacement. Studies have shown that interactive learning engages students and delivers better test scores.

Interactive iProjectors are a Smart Investment

- Project on any surface and interact with lesson plans.
- Engage with the entire screen – pen acts as wireless mouse and interacts from a distance or by touching the screen.
- Write directly on any projected surface with the included interactive pen. No alignment or calibration required.
- ViewSonic's ViewDraw™ drawing/paint software allows seamless integration between hardware and curriculum software. Make notes annotate images and save changes.
- RJ45 LAN connection with included software allows up to 4 users to project at the same time with the ability to broadcast up to 8 projectors. Plug and play ready. Optional WiFi capability.
- 3-year limited warranty on parts and labor. 1-year lamp, 1st year free Express Exchange® service
