

The following vice/clamping tools are a multi purpose system based around the universal swivel ball joint units into which may be fitted either vices or the central mounting rod. A mini-vice swivel joint and a variety of clamps may be added to the rod in any configuration required. All moulded parts are glass filled nylon.

Bench Bases

- Universal swivel ball joints with mountings for bench top (143-899) or bench clamp (143-900)
- The swivel joint is lockable in any position
- The bases will accept either the long or the short vice or the multi purpose clamping system mounting rod
