NETWORK

HL-2150N

Stylish and compact, the Brother HL-2150N delivers fast, high quality output. With network connectivity built-in as standard, the HL-2150N is a great addition to your business.

Working in a small office or running a small business from home, it's always wise to have the option of low-cost mono laser printing.

Think about your daily print requirements. Do all of your business documents really need to be printed in colour? Financial statements, letters and business stationery would all be more cost-efficient to print on a high speed mono laser printer.

By multiplying this by the number of users on your existing network the cost saving effect on your business could be substantial.

The Brother HL-2150N mono laser printer delivers fast, high quality print results quickly and efficiently.

Network-ready as standard, the HL-2150N can easily handle the demands of multiple users. Using the quick start guide you can be up and running in no time, printing high

quality documents at speeds of up to 22ppm. The slick, neat design means your printer requires the minimum amount of space.

It's compatible with Windows®, Mac® and Linux and its full-speed USB interface allows for easy connection with most modern devices, including laptops. The 250 sheet paper tray can cope with large print runs without the need to be regularly re-filled, and media types such as envelopes, can be handled through its manual feed slot.

Add to this its low purchase price, together with a separate toner and drum, which means you only replace the toner or drum when necessary, and the HL-2150DN makes real business sense for your organisation.

HL-2150N Technical Specifications

General

Technology	Electrophotographic
Print Speed A4	Up to 22ppm
First Print Out Time	Less than 10 seconds
Resolution	HQ1200 (2400 x 600), 600dpi, 300dpi
Processor	181MHz
Memory Capacity	16MB
Interface	Full-Speed USB 2.0
Network	Ethernet 10/100BASE-TX
IPv4 Supported Protocols	TCP/IP, ARP, RARP, BOOTP, DHCP, APIPA(Auto IP), WINS/NetBIOS, DNS resolver, mDN, LLMNR responder, LPR/LPD, Port9100, IPP, FTP Server, POP before SMTP, SMTP AUTH, APOP, TELNET, SNMP, HTTP, TFTP, SMTP Client, ICMP, Web Services
