Owner's Manual

Bluetooth Hands Free Vehicle Kit

IMPORTANT NOTE: The operation of the Bluetooth Hands Free Kit as described in this manual is applicable to most phones. However, due to the configuration of some phones, some functions may not apply. Please see your installing dealer for more information.

Using Your Bluetooth Hands Free Kit

Powering On/Off

The bluetooth kit will automatically turn on when the vehicle's key is turned to the accessory position and will remain on until the vehicle's accessory power is turned off. After turning on, the bluetooth kit will automatically search for phones that have been paired with it. Since it is possible to have multiple phones paired to the system the order of priority of connecting will be the latest phone paired, the phone most used with the system, the phone second most used phone with the system. If the bluetooth kit has not been paired to a phone pairing will automatically activate.

Making a Call

When connected to the bluetooth kit you may use your phone as normal to dial numbers or search your contacts list or by using Voice Dialing.

Voice Dialing

To activate voice dialing press the ANSWER/END key on the bluetooth keypad, the system will prompt you for a command. Clearly speak your command (example, "Call Shaun"). The system will then confirm the command and in this example will then call "Shaun".

Ending a Call

To end a call press the ANSWER/END key.

Answer a Call

When there is an incoming call the vehicle's radio will be muted/turned off and the call will ring through the vehicle's speaker, to answer press the ANSWER/END key.

Ignore an Incoming Call

To Ignore an incoming call press and hold the ANSWER/END key for 2 to 5 seconds.

Redial the Last Number

To redial the last number press and hold the ANSWER/END key for 2 seconds.

Adjusting the Call Volume

While in a call, to adjust the volume up/down with the ANSWER/END key, pressing and holding the ANSWER/END key will automatically raise or lower the volume. When the max volume is reached it is set up to automatically lower the volume down to the min level. The system will beep 2 times when the min/max volume levels are reached.

Transfer a Call

To transfer a call between bluetooth hands free or normal phone operation press and hold the ANSWER/END key on the bluetooth keypad for 2 seconds.

Pairing

To activate phone pairing press and hold the ANSWER/END key for 10 seconds, the system will beep 3 times. At this time you will need to activate pairing on the phone, see your phones owners manual. The PIN code for pairing is 1234 and will need to be entered into your phone at the time of pairing.

*Throughout this manual, 'press' refers to pressing for less than 1 second, 'press and hold' refers to pressing for 2 seconds.

Using Your Bluetooth Hands Free Kit, continued

Manual Search for Paired Phone

If your phone is not connected to or has been disconnected by you from the bluetooth kit but has previously been paired to the system you can activate the manual search which will locate your phone and connect to it. To activate a manual search press the ANSWER/END key.

Manual Temporary Disconnect

To temporarily disconnect the currently connected phone from the bluetooth kit press and hold both the ANSWER/END key for 5 seconds, the system will beep 2 times.

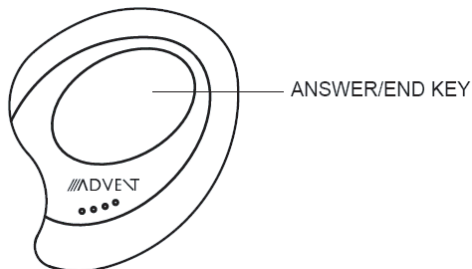

Reset / Clear All Paired Phones

To permanently remove all paired phones from the bluetooth kit press and hold both the ANSWER and END keys together for 15 seconds, the system will beep 4 times.
