**Thank you for joining us at ASMS 2006 in Seattle!**

This year marks one of the biggest product launches in Agilent's history with the new 1200 Series HPLC system, including the Rapid Resolution LC, and the new 6000 Series LC/MS systems, including the new 6410 Triple Quad and 6510 Q-TOF.

Along with all the new products, Agilent also presented numerous scientific posters and presentation. We are please to make these available to you on line. To view these files, visit [www.agilent.com/chem/asms](http://www.agilent.com/chem/asms).

If you need help registering and/or accessing the web site or require more information about our new 1200 series LC systems, 6000 series LC/MS systems or any of our product offerings, call 800.227.9770 in the US and Canada or email your request to [agilent\\_inquiries@agilent.com](mailto:agilent_inquiries@agilent.com).

**Don't forget** that we are also offering you a 25% discount off your next LC column purchase. Just place an order at 800.227.9770 between now and September 30th, 2006 referencing promotion code **5.286 TS02** to receive the discount.

Again, thank you for your interest in our offerings at ASMS. We truly appreciate your business and look forward to working with you!

Sincerely,

Agilent Technologies  
Enclosure  
AT/II

*P.S. Have you heard about the 6000 Series LC/MS Lab Makeover Sweepstakes? Agilent is **giving away a complete LC/MS system**. Visit [win-a-mass-spec.com](http://win-a-mass-spec.com) for contest details and to register.*
