

Agilent ChemStore User Operation Training

Agilent Chemical Analysis Training Courses

H2289A

One Day
Hands-On Operation

Description

Introduces the fundamentals of using Agilent's ChemStore software. Topics cover the basics of setting up a study and custom fields, data transfer, queries, and reporting

Course Outline

- Introduction
- Creating a Study
- Custom Fields
- Transferring ChemStation Data to the Data Storage Module
- Setting up a Query
- Filtering the Dataset
- Data Review
- Custom Reports
- Review

Prerequisites

- Knowledge of how to use the Agilent ChemStation (for gas chromatography, liquid chromatography, or LC/mass selective detection)
- Or attendance in a three-day ChemStation data analysis and reporting class (H2606A, H4039A, H4076A or H1181A)
- Or attendance in a multi-day Agilent instrument operator class

Student Profile

Anyone who wants enhanced knowledge and skills in using the Agilent ChemStore software.

Equipment Used during Training

- Computers with Microsoft® Windows® NT Workstation
- ChemStation Plus software
