

## Consumables and Supplies Required for Repair

### Specification

When your system needs repair, you want complete coverage, without having to generate a separate purchase order for the consumables or supplies not covered by basic repair plans. That's why the Agilent Advantage Bronze, Silver, and Gold plans include an option for Consumables and Supplies Required for Repair.

The Consumables and Supplies Required for Repair feature covers the costs of all consumables or supplies needed by your service engineer to diagnose instrument problems or affect the repair of your instrument systems. And, since all Advantage plans also cover travel, labor, and repair parts, you can be confident that you're fully covered for all costs of instrument repair.

Best of all, you'll get genuine Agilent parts, consumables, and supplies, no matter the number of visits or quantity of consumable items required to return your system to normal operations. In as little as one visit, plans that include consumables and supplies coverage can easily pay for the price uplift from a service plan without this feature.

## Gas Chromatography

### Gas Chromatograph Products

Liners	O-rings	Washers
Seals	Septa	Column nuts
Ferrules	Insert springs	FID jet
NPD bead	ECD cell	Detector igniters
Heated Sample Filter (Micro GC)	Unheated Sample Filter (MicroGC)	

### Gas Chromatograph-Mass Spectrometer Products

Electron multiplier	O-rings	Vacuum gauge tubes
Filaments	Gaskets	

### GC Ion Trap Products – 210, 220 & Saturn 2000 MS

Spacers	Filaments	Transfer line tips
Springs	Gaskets	Lens assembly
Electrodes	End cap assembly	Trap oven half, entrance & exist
Dry scroll pump tip seal	Dry scroll replacement	Oil mist eliminator
Gate conductor	Turbo pump screens	Oil mist cartridge
Thermo well	Gate & gate conductor	

## Liquid Chromatography

### Liquid Chromatograph Products

Wear retainers	Inlet cap	Piston seals
Filter inlets	PTFE frits	Needle seats
Gaskets	Rotor seal	Windows
Spacer FEP	Finger caps	Seat capillary
Needle assemblies	Cell springs	Outlet cap
Seals	Step window	Pistons
Capillaries	Valves	Seat assemblies
Deuterium lamps	Valve cartridge	Space
Xenon lamp	Electrode	Tungsten lamps
Precision glass capillary, platinum ends	Flow cell	

### Liquid Chromatograph-Mass Spectrometer Products

Canted coil spring	Inlet filter	Seals
Capillary cleaning wire	LC/MS nitrogen gas conditioner	Tubing
Corona needle	Nebulizer needle APCI & API-ES	Vacuum pump fluid
Electron multiplier replacement horn	Nebulizer needle holder	Fittings
Ferrules	O-rings	Rotor seal
Photomultiplier tubes		

## Dissolution Systems

### Dissolution Systems

Cartridge for Vankel	Tubing	Needle assembly
Belts	Fitting holders	Syringe mounting parts
Washers	Evaporation shields	Bearing liners
Thermistor probes	Centering rings	Hose clamps
Drive chain	Strain beam gasket	Idler gears

## Atomic Spectroscopy

### Atomic Absorption Systems

O-rings	Burner cleaning cards	Nebulizer cleaning wires
Graphite Electrodes	Capillary Tubing (Std Neb / Hivac Neb)	

### ICP-OES Systems

O-rings	Single piece torch	Pre-optic window
Peristaltic pump tubes	Nebulizer EzyFit connectors	

### ICP-Mass Spectrometer Products

Peri-pump tube	Torch	Lens spacer kit
Sample tube	Spray chamber	Interface cones
Octopole	Detector	Autosampler probe
Nebulizer	O-rings	Ferrules & fittings

## FTIR

### Fourier Transform Infrared Spectrometry Products

MIR Source Assemble (600 Series)	KBR Sample Compartment Window (640/660)	Laser Assembly (600 Series)
KBR Beam splitter (640/660/670/680)	Desiccant Cartridge (640/660)	

## Capillary Electrophoresis

### Capillary Electrophoresis Products

Air filter	Glass frit	Pre-puncher
Electrode assembly	Deuterium lamp	

## NMR, MRI, X-ray Crystallography

At this time, there are no consumables items used in NMR, MRI, or X-ray Crystallography systems that are treated as repair parts.

## UV-Vis

### UV-Vis Products

Lamp	Excitation Filter Wheel (Eclipse)	Source Optics (Cary 50)
Source Mirror (Cary 100/300/4000/5000/6000i)	Emission Filter Wheel (Eclipse)	S / Compartment windows (Cary 4000,5000,6000i & Eclipse)
Filter Wheel (Cary 100/300)	Deuterium Lamp	Visible Lamp

## Automation Solutions

### Automation Solutions

Fuse	Shock absorbers	Vacuum pads
Gripper points	Gripper pads	Tubing
Tubing connectors	Pump heads	Barrels
O-rings	Pistons	Rollers

Note: The Consumables and Supplies Required for Repair option does not provide consumables and supplies for the routine maintenance or normal operation of your Agilent instruments. However, should one of these parts be specifically required for repair by an Agilent service engineer, it will be covered by the agreement.

Some consumables may be unique to a specific model number or may only be replaced during repairs of a specific Agilent model. These scenarios are shown in the table with the instrument(s) model number listed in parenthesis after the consumable. Consumables with no models listed are generally applicable to the entire class of instruments, although some listed consumables may not be applicable to a certain instrument due to its design.
