Visit www.stratagene.com/proteomics for more products that will help make your proteomics research more efficient:

- Multiple Affinity Removal System LC Columns for automated sample processing
- Macroporous RP C18 High-Recovery Protein Columns for fractionation and desalting of complex protein mixtures
- Complex Proteomics Standard for proteomic workflow validation
- Proteomics Grade Trypsin with protocols for in-solution or in-gel digestion
- MS-friendly detergent PPS Silent Surfactant for greater recovery of hydrophobic proteins from complex mixtures
- FFPE Protein Extraction Solution for detergent-free protein extraction from tissue blocks
