

The Most Streamlined Move

Agilent Relocation Service

One Supplier
for your entire lab relocation

A streamlined organization, your peace of mind is guaranteed

Agilent is your single point of contact for an entire lab move. You save time, money and avoid the complexity of using multiple vendors, multiple sources and schedules for relocation.

For all Instruments
regardless of manufacturer

No costly mistakes, your equipment is moved safely

With our 40 years of expertise in instrument manufacturing and certified team of engineers, we provide Agilent quality of services regardless of your equipment's vendor.

Operations back quickly
to maintain productivity

No unexpected downtime, your lab is back to normal operation quickly

We re-install your instruments and perform configuration testing. We also offer optional services such as preventive maintenance, functional testing, qualification and education.

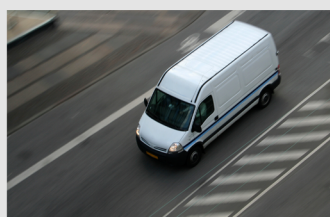

We manage everything for you
efficiently and **expertly**

Your Advantage:

Minimal disruption and maximum uptime

Extensive relocation planning
with full documentation

Requalification of instruments
and compliance testing
as appropriate

Preparation of instruments
for the move

Configuration
testing

De-installation
of instruments

Relocation of Instruments
