General Features

19 ppm print engine

- Output printing at speeds up to 13 pages per minute.

80-sheet automatic document feeder

- Enables copying, faxing or scanning of large jobs without having to separate them into multiple sets.

Flexible paper capacity

- Standard 500-sheets paper capacity easily expands to 1,000 sheets with optional 2nd cassette.

Multipurpose bypass tray

- A4 50 sheet bypass tray enables you to copy onto OHP film, letterhead or envelopes while electronic sorting lets you manage output more easily.

USB Color scanning is standard

- High-resolution color scanner offers easy digital transfer of hardcopy photos, charts and various office documents. TWAIN compliance scans images into popular software applications.

33.6 Kbps modem

- High-speed modem transfers data at speeds up to 2 seconds per page.

Quick memory transmission

- Starts sending fax as soon as scanning begins.
- Scanned documents are also held in memory when line is busy.

Broadcasting and group dialing

- Send documents to multiple parties at the touch of the button.

Standard GDI-based printing

- GDI printing system produces crisp, clear prints at 600dpi.

Optional PCL printer (PCL 5e/6)

- GDI printer can be upgraded to a PCL printer allowing compatibility with corporate and legacy applications.

Network connectivity

The F-315 will also perform as a network printer. Just add the optional Network Interface Card (NP-400), and you can print black and white documents via your network from Windows 98SE, ME, NT4.0, 2000, XP, Vista and Server 2003. You can also send hardcopy documents to remote Internet fax terminals or e-mail addresses.

- Please read the instruction manual carefully before using the machine.
- DO NOT use the machine in wet, humid, dusty, and/or smoky environment. Such environment may cause fire, malfunction and/or electric shock.
