Safety Instructions

	WARNING RISK OF ELECTRIC SHOCK DO NOT OPEN	
WARNING: To reduce the risk of electric shock do not remove cover or back. No user-serviceable parts inside. Refer servicing to qualified service personnel.		

The lightning flash with arrow-head within a triangle is intended to tell the user that parts inside the product are a risk of electric shock to persons.

The exclamation point within a triangle is intended to tell the user that important operating and servicing instructions are in the papers with the appliance.

Note To CATV System Installer: This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

Safety Instructions For Television Receivers

1. Read and apply the operating instructions provided with your television receiver.
2. Read all of the instructions given here and retain them for later use.
3. Unplug this television receiver from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
4. Do not use attachments not recommended by the television receiver manufacturer as they may cause hazards.
5. Do not use this television receiver near water. For example: Avoid placing it near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.
6. Do not place this television receiver on an unstable cart, stand, or table. The television receiver may fall, causing serious injury to a child or adult, and serious damage to the appliance. Use only with a cart or stand recommended by the manufacturer, or sold with the television receiver. Wall or shelf mounting should follow the manufacturer's instructions, and should use a mounting kit approved by the manufacturer.
- 6A. An appliance and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the appliance and cart combination to overturn.
7. Slots and openings in the cabinet and the back or bottom are provided for ventilation, and to insure reliable operation of the television receiver and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the television receiver on a bed, sofa, rug or other similar surface. This television receiver should never be placed near or over a radiator or heat register. This television receiver should not be placed in a built-in installation such as a bookcase unless proper ventilation is provided.
8. Operate only from the type of power source indicated on the marking label. If you are not sure of the type of power supplied to your home consult your television dealer or local power company. For television receivers designed to operate from battery power, refer to the operating instructions.
9. This television receiver is equipped with a polarized alternating-current line plug (a plug having one blade wider than the other). This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.
10. Do not allow anything to rest on the power cord. Do not locate this television receiver where the cord will be abused by persons walking on it.
11. Follow all warnings and instructions marked on the television receiver.
12. Do not overload wall outlets and extension cords as this can result in fire or electric shock.
13. Never push objects of any kind into this television receiver through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the television receiver.

14. If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges. In the U.S. Section 810 of the National Electrical Code and in Canada Part 1 of the Canadian Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. See Figure.
15. For added protection for this television receiver during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the receiver due to lightning and power-line surges.
16. An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
17. Unplug this television receiver from the wall outlet, and refer servicing to qualified service personnel under the following conditions:
 - a. When the power cord or plug is damaged or frayed.
 - b. If liquid has been spilled into the television receiver.
 - c. If the television receiver has been exposed to rain or water.
 - d. If the television receiver does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the television receiver to normal operation.
 - e. If the television receiver has been dropped or the cabinet has been damaged.
 - f. When the television receiver exhibits a distinct change in performance – this indicates a need for service.
18. Do not attempt to service this television receiver yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
19. When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
20. Upon completion of any service or repairs to this television receiver, ask the service technician to perform routine safety checks to determine that the television is in safe operating condition.
21. **WARNING: To prevent fire or shock hazard, do not expose this appliance to rain or moisture.**
22. **CAUTION: TO PREVENT ELECTRIC SHOCK DO NOT USE THIS (POLARIZED) PLUG WITH A RECEPTACLE OR OTHER OUTLET UNLESS THE BLADES CAN BE FULLY INSERTED TO PREVENT BLADE EXPOSURE.**

NOTE: This equipment is designed to operate in the U.S.A., Canada and other countries where the broadcasting system and AC house current is exactly the same as in the U.S.A. and Canada.

Important Information Regarding Use of Video Games, Computers, DSS or Other Fixed Image Displays.

The extended use of fixed image program material can cause a permanent "shadow image" on the picture tube. This background image is viewable on normal programs in the form of a stationary fixed image. This type of irreversible picture tube deterioration can be limited by observing the following steps:

- A. Reduce the brightness/contrast setting to a minimum viewing level.
- B. Do not display the fixed image for extended periods of time.
- C. Turn the power off when not in actual use.

NOTE: The marking or retained image on the picture tube resulting from fixed image use is not an operating defect and as such is not covered by Warranty. This product is not designed to display fixed image patterns for extended periods of time.

Specifications

Power Source:	120V, 60Hz, AC
Channel Capability:	181 channels (See chart) VHF 2~13, UHF 14~69, Cable 125 channels
Video Input Jack (2 sets):	1V p-p, 75 ohm, phono jack type
Audio Input Jack (2 sets):	500mV rms 47K ohm
Closed Caption Display	
Earphone Jack:	13" Models Only

Introduction

Congratulations on Your New Purchase

Your new video component features an all solid state chassis which is designed to give you many years of enjoyment. It was thoroughly tested and adjusted at the factory for best performance.

In order for you to take full advantage of your new video component, please read and follow the installation and operating instructions supplied with this product.

Customer's Record

The model and serial number of this product may be found on its back cover. You should note the model and serial number in the space provided and retain this book as a permanent record of your purchase to aid in identification in the event of theft or loss.

Care and Cleaning

Picture Tube (Turn set off)

Use a mild soap solution or window cleaner and a clean cloth. DO NOT USE ABRASIVE CLEANERS. Avoid excessive moisture and wipe dry.

Plastic Cabinets

Wipe the cabinet with a soft cloth dampened with water or a mild detergent solution and wipe dry with a soft clean cloth. Avoid excessive moisture. Do not use benzene, thinners or other petroleum based cleaners.

Wood Cabinets

When dusting or polishing the cabinet, use a clean soft cloth and stroke straight with the grain. An occasional coat of furniture polish will help preserve the finish. Do not use benzene, thinners or other petroleum based cleaners. Do not place objects made of plastic or rubber directly on top of the cabinet. A chemical reaction could result causing permanent marring of the finish.

Remote Control Transmitter

Do not use benzene, thinners or other petroleum based cleaners to clean the Remote Control Transmitter. To clean, wipe with a soft cloth slightly moistened with a mild detergent and then wipe dry with a soft clean cloth.

Installation

Receiver Location

This unit is intended to be used with an optional stand or entertainment center. Consult your dealer for available options. Locate for comfortable viewing. Avoid placing where sunlight or other bright light (including reflections) will fall on the screen.

Use of some types of fluorescent lighting may reduce remote control transmitter range.

Adequate ventilation is essential to prevent internal component failure. Keep away from areas of excessive heat or moisture.

To insure optimum color purity do not position magnetic equipment (motors, fans, other speakers, etc.) nearby.

Optional External Equipment Connections

The Video/Audio connections between components can be made with shielded video and audio cables. For best performance, video cables should utilize 75 ohm coaxial shielded wire. Cables are available from your dealer or electronic supply house.

Before you purchase any cables, be sure you know what type of output and input connectors your various components require. Also determine the length of cable you'll need.

AC Power Supply Cord

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT OF AC OUTLET AND FULLY INSERT. DO NOT USE THIS (POLARIZED) PLUG WITH A RECEPTACLE OR OTHER OUTLET UNLESS THE BLADE CAN BE FULLY INSERTED TO PREVENT BLADE EXPOSURE.

Polarized Plug

Remote Control Battery Installation

Batteries: Use two "AA" batteries.

1. Remove the battery compartment cover on back of the remote.
2. Install the batteries in the battery compartment. (Polarity (+) or (-) must be correct.)
3. Reattach the battery cover.

To Remove Cover Push In And Up
On Catch With A Narrow Object

EUR501371
or
EUR501372
(WHITE)

Helpful Hints:

For frequent Remote Control users, replace old batteries with Alkaline batteries for longer life.

Precaution on Battery Use

Incorrect installation can cause battery leakage and corrosion that will damage the Remote Control Transmitter.

Observe the Following Precautions:

1. Batteries must be replaced as a pair.
2. Do not combine a used battery with a new one.
3. Do not mix battery types (Example: "Zinc Carbon" with "Alkaline").
4. Do not attempt to charge, short-circuit, disassemble, heat or burn used batteries.
5. Battery replacement is necessary when Remote Control reacts sporadically or stops operating the TV.

Installation (cont.)

Antenna/Cable Connections

Antenna Connection – For proper reception of VHF/UHF channels, an external antenna is required. For best reception an outdoor antenna is recommended. **Antenna Mode must be set to TV.** (Refer to Antenna Mode section.)

Incoming Cable from Home Antenna

Cable Connection – For reception of cable channels, connect the cable supplied by your local cable company. **Antenna Mode must be set to CABLE.** (Refer to Antenna Mode section.)

Incoming Cable from Cable Company

NOTE: Certain cable systems offset some channels to reduce interference or have Premium (scrambled) channels. A cable converter box is required for proper reception. Check with your local Cable company for compatibility requirements.

Other Video Equipment

VCRs, Video Disc Players, Computers, TV games, and DSS equipment can also be connected to the antenna input connection.

How to Install VHF/UHF Dipole Antenna (13" Models Only)

A VHF/UHF antenna and matching transformer are supplied.

Push the stem of the VHF/UHF antenna into the antenna hole on the cabinet back as shown. Extend the antenna and adjust its length, direction and angle for the clearest picture.

Optional Equipment Connection and Operation

Rear Audio/Video Input Connection

NOTE: TURN OFF Rear Audio/Video Input device before TURNING ON the Front Audio/Video Input device. If both are ON at the same time it will cause an Audio/Video interference between the two input signals.

Front Audio/Video Input Connection

Operation

1. Connect the Optional Equipment as shown to Front or Rear Audio/Video Input Jacks. If Optional Equipment is Stereo, place Optional Equipment in Monaural Mode and use either left or right Audio Output jack.
2. Select the Video mode by pressing the TV/VIDEO button.
3. Operate optional equipment as instructed in Optional Equipment manual.

Location of Controls Remote

Power Button

Press to turn ON or OFF.

Mute Button

Press to mute sound. A second press resumes sound. Press also to access and delete Closed Caption display.

Volume Buttons

Press to adjust TV sound level. Use with Channel buttons to navigate in menus.

Keypad Buttons

Press desired channel number to randomly access any channel.

R-Tune (Rapid Tune) Button

Press to switch to the previous channel.

TV/Video Button

Press to select TV or Video Input.

Channel Buttons

Press to select channels. Use with Volume buttons to navigate in menus.

Action Button

Press to display Main Menu and access or exit On Screen feature and Adjustment Menus.

Recall Button

Press to display Time, status of Sleep Timer, Channel, Video Mode and Channel Caption (Station Identifier).

EUR501371 (CT-13R16 and CT-20R14)

EUR501372 (CT-13R17 WHITE)

Location of Controls Receiver

- ① **Power Button** – Press to turn ON or OFF.
- ② **Volume Buttons** – Press to adjust Sound Level. Press to adjust Video Menus and select operating features when menus are displayed.
- ③ **Channel Buttons** – Press to select programmed channels. Press to highlight desired features when menus are displayed.
- ④ **Action Button** – Press to display Main Menu and access On Screen feature and Adjustment Menus.
- ⑤ **TV/Video Button** – Press to select TV or Video Input.
- ⑥ **Earphone Jack (13" Models Only)** – Plug in an optional earphone for private monitoring of sound. This jack accepts an earphone with a 1/8" mini plug.
- ⑦ **Front A/V Input Jacks** – Used to connect a camcorder or other video devices to the front of the TV. (Refer to Audio/Video Connection section for operation.)

Special Functions

R-TUNE

R-Tune – Pressing  will switch between the last two channels selected on the numeric keypad.

NOTE: When rapidly scanning channels with the CHANNEL UP/DOWN button, pressing the R-TUNE button will switch between the last channel scanned, and initial channel at the start of scanning.

RECALL

Recall – Press  to review:

- ① CH Number Or Video Input Selected
- ② Channel Caption (Station Identifier)
- ③ Clock Time
- ④ Sleep Timer Status

MUTE

Mute – Press  to quickly reduce sound level (Mute will appear on screen). Press again to restore sound. Also used to display Closed Caption (refer to CC Mode section for more information, located in the Set-Up Menu).

Main Menu Icons

NOTE: When Auto Power On feature is activated, Timer Icon will change to Exit Icon.

Display and Exit Menus

CH BUTTONS
Highlight Desired Feature when Menu is Displayed

VOL BUTTONS
Selects or Adjusts Features when Menu is Displayed

Located On Remote Control

1. Press  .
2. Press  or  and  or  to select the desired icon.
3. Press  after selecting the desired icon to access sub menus.
4. Press  twice to exit sub menus or press  once while the EXIT Icon is highlighted to exit Main Menu.

Menu Language Selection

The MENU LANGUAGE is factory set to ENGLISH. Follow the instructions to change the Language Menu to SPANISH, FRENCH, and back to ENGLISH.

1. Press .
2. Press  or  and  or  to highlight the Set-Up Icon.
3. Press  to display the Set-Up Menu.

4. Press  or  to highlight ENGLISH, ESPAÑOL, FRANÇAIS.
5. Press  or  to select ENGLISH, ESPAÑOL, or FRANÇAIS.
6. Press  twice to exit menus.

Picture Adjustments

Picture Norm

Use to reset picture adjustments back to a factory preset level.

1. Press .
2. Press  or  and  or  to highlight the Picture Icon.
3. Press  to display the Picture Adjustment Menu.

4. Press  or  to highlight PICTURE NORM.
5. Press  or  to select "SET" to normalize Color, Tint, Brightness, Picture, and Sharpness.
6. Press  twice to exit menus.

Color, Tint, Brightness, Picture, and Sharpness Adjustments

1. Press .
2. Press  or  and  or  to highlight the Picture Icon.
3. Press  to display the Picture Adjustment Menu.

4. Press  or  to select the desired Picture Adjustment (Color, Tint, Brightness, Picture, or Sharpness).
5. Press  or  to adjust your selection.
6. Repeat steps 4 and 5 for the remaining Picture Adjustments.
7. Press  twice to exit menus.

Lock

Lock Game Guard

Prevents video games and other video sources from being viewed. Channel 3, 4 and video inputs are locked out for 12, 24 or 48 hours. **NOTE:** Be sure to understand this feature before attempting its use. **Use a code that you will easily remember or write down code on a piece of paper.**

1. Press  .
2. Press  or  and  or  to highlight the Lock icon.
3. Press  to display the Lock Menu.

4. "HOW LONG" should already be highlighted. Press  to select the desired amount of time (12, 24 or 48 hours) for Game Guard Lockout to be activated.
5. Press  to highlight ENTER CODE. Then enter a 3 digit code with the Remote Control Keypad. "SET" should be highlighted after entering the last digit. **IMPORTANT NOTE: Use a code you can easily remember or write down the code on a piece of paper.**
6. Press  after entering three digit code. "Game Guard Locked" will display On Screen.

Game Guard Activated

Unlock Game Guard

To unlock the Game Guard feature, repeat steps 1 through 3. Enter the same 3 digit code previously used in step 5 with Remote Control Keypad.

Enter Same 3 Digit Code Previously Used

If 3 Digit Code Is The Same

If 3 Digit Code Is Not The Same

Channel Caption

This feature allows you to enter the call names of up to 30 stations into memory (using up to 4 characters for each station). The Channel Caption will then display along with the channel number when changing channels or pressing RECALL.

1. Press **ACTION**.
2. Press **CH** or **CH** and **VOL** or **VOL** to highlight the Channel Caption Icon.
3. Press **ACTION** to display the Channel Caption Menu.

4. Press **VOL** or **VOL**, or use the Remote Control Keypad to enter the channel number you wish to assign a Station Identifier.
5. Press **CH** to highlight ENTER CAPTION.
6. Press **VOL** or **VOL** to select first character in Station Identifier. Then press **CH** to move cursor to the second position and repeat until the complete Station Identifier is entered (up to 4 characters).
7. Press **CH** or **CH** to highlight ENTER CHANNEL NUMBER. Then repeat steps 4 through 6 to continue adding Channel Station Identifier(s).
8. Press **ACTION** twice to exit menus.

NOTE: To delete a Channel Caption (Station Identifier) from memory all four character positions in the "ENTER CAPTION" area must display a dash mark (-).

Helpful Hints:

When the Maximum amount of station identifiers are entered, "FULL" will be displayed in the caption position.

Timer Features

Sleep Timer

This feature is used for automatic turn off in 30, 60 or 90 minutes. Display will flash 3, 2 and 1 to indicate the last three remaining minutes prior to turn off. The Recall display will also appear.

NOTE: This feature will be disabled when Auto Power On is activated.

1. Press **ACTION**.
2. Press **CH** or **CH** and **VOL** or **VOL** to highlight the Timer Icon.
3. Press **ACTION** to display the Timer Control Menu.

4. Press **VOL** to select NO, 30, 60 or 90 minutes (Sleep Timer will be activated).
5. Press **ACTION** twice to exit menus.

NOTE: To deactivate Sleep Timer repeat steps 1 through 4. In step 4 select "NO" instead of minutes.

Helpful Hints:

Press the RECALL button to display the remaining minutes for Sleep Timer, the status will display in the bottom left corner (red).

Timer Features (cont.)

Special Feature:

Automatic turn "OFF" after 90 minutes.

The TV has a special feature that will shut itself **OFF** after 90 minutes when turned **ON** by the program timer unless a function key is pressed during the 90 minutes.

This feature is useful so that the TV will not remain **ON** unattended for an extended period of time.

Programming the **OFF** timer will cancel the automatic **OFF** Special Feature.

Program Timer

This feature is capable of turning the TV on, tuned to a desired channel and off at a predetermined time (one day or daily). The clock must be set for this feature to operate. (Refer to the Set-Up Menu to set time.)

NOTE: This feature will be disabled when Auto Power On is activated.

1. Press .
2. Press  or  and  or  to highlight the Timer Icon.
3. Press  to display the Timer Control Menu.

4. Press  to highlight ON (time).
5. Press  or  repeatedly to set hours (set AM/PM accordingly).
6. Press  to highlight the minutes position.
7. Press  or  repeatedly to set minutes.
8. Press  to highlight OFF (time).

9. Repeat steps 5 through 7 for setting OFF (time).
10. Press  to highlight CHANNEL.

11. Press  or  or use the Remote Control Keypad to enter the channel number desired when the set turns "ON".
12. Press  to highlight SET.

13. Press  to select:
 - NO – not activated
 - ONE DAY – activated
 - DAILY – activated
 14. Press  twice to exit menus.
- NOTE: To deactivate Program Timer select NO in step 13.**

Helpful Hints:

- If the Program Timer "ON" functions while the set is operating, the set will automatically tune to the channel designated in the Timer Program.

Set-Up Features

Set Time

Clock (when set) will display on screen at initial "Turn On", after a channel change and when pressing the RECALL button. The time must be set first in order to operate the Program ON/OFF Timer.

NOTE: This feature will be disabled when Auto Power On is activated.

1. Press .
2. Press  or  and  or  to highlight the Set-Up Icon.
3. Press  to display the Set-Up Menu.

4. Press  or  to set hours (set AM/PM accordingly).
5. Press  to select minutes position.
6. Press  or  repeatedly to set minutes.
7. Press  twice to exit menus.

Antenna (Ant)

The proper Input mode must be selected for the type of signal at the antenna input.

- TV mode is used when the Receiver is not connected to a cable TV system, for example when using a VHF/UHF antenna (channels 02 – 69).
- Cable mode is used when the Receiver is connected to a Cable TV system and you are not using a cable company converter box (channels 01 – 125).

NOTE: This feature is disabled when Game Guard Lock is activated.

1. Press .
2. Press  or  and  or  to highlight the Set-Up Icon.
3. Press  to display the Set-Up Menu.

4. Press  to highlight ANT.
5. Press  or  to select TV or CABLE.
6. Press  twice to exit menus.

Auto Prog

This feature allows you to place all channels with a video signal into Channel Scan Memory.

NOTE: This feature is disabled when Game Guard Lock is activated.

1. Press .
2. Press  or  and  or  to highlight the Set-Up Icon.
3. Press  to display the Set-Up Menu.

4. Press  to highlight AUTO PROG.
5. Press  or  to start Auto Programming. Channels will automatically advance until all channels have been scanned.
6. Press  twice after completion of Auto Programming to exit menus.

NOTE: Channel numbers with signal present will turn blue which indicates stored in Channel Scan Memory.

Set-Up Features (cont.)

Manual Prog

This feature allows you to select which channels are placed into Channel Scan Memory.

NOTE: This feature is disabled when Game Guard Lock is activated.

1. Press  .
2. Press  or  and  or  to highlight the Set-Up Icon.
3. Press  to display the Set-Up Menu.

4. Press  to highlight MANUAL PROG.
5. Press  or  to display the Manual Programming Menu.

6. Use the  or  or the Remote Keypad "0 through 9" buttons to select channels.
7. Press  to **add** channel(s) to memory (Blue). Press  to **delete** channels from memory (Yellow).
8. Repeat steps 6 and 7 to continue adding or deleting channels.
9. Press  twice to exit menus.

Auto Power On

This feature allows the user to power up the TV at the same time as the cable box (or other components). Of course, the TV must be plugged into the cable box.

NOTE: When this feature is activated (on), Timer features will be disabled.

1. Press  .

2. Press  or  and  or  to highlight the Set-Up Icon.

3. Press  to display the Set-Up Menu.

4. Press  to highlight AUTO POWER ON.
5. Press  or  to select SET or OFF.
6. Press  twice to exit menus.

CC (Closed Caption) Mode

This Receiver has a built in decoder that provides a visual depiction of the audio portion of a television program, in the form of written words across the screen (White or Colored letters on a black background). It allows the viewer to read the dialogue of a television program or other information.

When the Closed Caption is in the OFF Mode:
The viewer may display closed caption by pressing the Mute button on the remote control. Press again to delete.

1. Press  .
2. Press  or  and  or  to highlight the Set-Up Icon.
3. Press  to display the Set-Up Menu.

4. Press  to highlight CC MODE.
5. Press  to select OFF, C1, or C2.
6. Press  twice to exit menus.

Troubleshooting Chart

Before you call for service, determine the symptoms and make a few simple checks shown below.

Symptoms		Check
Picture	Sound	
 SNOWY PICTURE	 NOISY SOUND	- ANTENNA LOCATION AND/OR CONNECTION
 MULTIPLE IMAGE	 NOISY SOUND	- ANTENNA DIRECTION AND/OR LOCATION - ANTENNA LEAD-IN WIRE - DEVICES CONNECTED TO FRONT AND REAR AV JACKS ON AT THE SAME TIME
 INTERFERENCE	 NOISY SOUND	- ELECTRICAL APPLIANCES, LIGHTS, CARS AND TRUCKS - DIATHERMY AND OTHER MEDICAL EQUIPMENT
 NORMAL PICTURE	 NO SOUND	- VOLUME CONTROL SETTING - MUTE CONTROL (IF APPLICABLE) - TRY ANOTHER CHANNEL - TV SPEAKERS SWITCH (IF APPLICABLE) IN THE OFF POSITION
 NO VIDEO	 NOISY SOUND	- TV OR CABLE TUNING MODE SET TO PROPER SETTING - ANTENNA INPUT CORRECT (IF APPLICABLE)
 NO PICTURE	 NO SOUND	- CHECK THAT AC POWER LINE IS PLUGGED INTO AC OUTLET - BRIGHTNESS & AUDIO CONTROLS SET PROPERLY - TRY ANOTHER CHANNEL
 NO COLOR	 NORMAL SOUND	- COLOR CONTROL SETTINGS - TRY ANOTHER CHANNEL
 BLACK PICTURE	 NO SOUND	- RECEIVER IN VIDEO MODE WITH NO SIGNAL

Power Loss

Prolonged power interruption causes the following features to reset to their factory preset state.

FEATURE	FACTORY PRESET STATE	FEATURE	FACTORY PRESET STATE
POWER	OFF	CLOCK	NOT SET
AUTO POWER ON	NO CHANGE	SLEEP TIMER	OFF
VOLUME	APPROX.-1/3	PROGRAM TIMER	OFF
CHANNEL	CH 03	ANTENNA MODE	CABLE
PROGRAM MEMORY	UNPROGRAMMED	TV/VIDEO	TV
VIDEO MENUS	NORMALIZED	TRILINGUAL MENU	ENGLISH
