

REPLACEMENT ROTORS

Replacing your BladeRunner rotors is easy.
Follow these instructions and you will be back in
the air in no time!

60-4460

Rotor parts

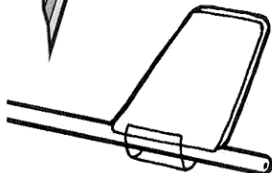

1. Stopper. (clear plastic)
2. Top Rotor. (short stem)
3. Spacer.
4. Base Rotor. (long stem with notch)

Instructions

Insert the base rotor stem down
onto the motor mount. (line up
the half circles inside the tube).
Slide down till the notches
interlock.

Slide down the spacer.
Next slide down the top rotor.
Now, holding the bottom of the
helicopter slide the stopper
down to meet the top spacing
tube. Squeeze all components
together.

Keep instructions for future reference.

To replace the tail fin:

- 1) Remove old fin completely
- 2) Stand replacement fin vertically in the same position as the original fin
- 3) Wrap Mylar around the tail-boom and adhere to new tail fin as shown
