- **Keeping ideas focused**
- **Graphically illustrating concepts**

**REPLACES EVERY WHITE BOARD
IN YOUR OFFICE, CUBICLE OR
CONFERENCE ROOM**

Suddenly, standard white boards are obsolete. Because once they're erased, everything is gone. With the CopyPoint™ White Board, copies can be instantly produced. Wall mounting and partition hanging hardware included.

You have a ton of information to review at your next meeting. But it's wishful thinking to believe that everyone will walk away with a comprehensive set of notes.

Why? Because some people just don't know how to take notes. Some take incomplete notes. Some copy the information incorrectly. Some just doodle. And some people don't even come prepared with a pad and pencil.

But with the advanced technology of the CopyPoint™ White Board, it's easy to share your ideas. Instead of concentrating on writing, everyone can be listening, learning and participating. With this unique system, any images or words written on the white board can be instantly printed out with CopyPoint's built-in printer. All you have to do is distribute the copies and everyone will leave the meeting with a complete, and accurate, set of notes.

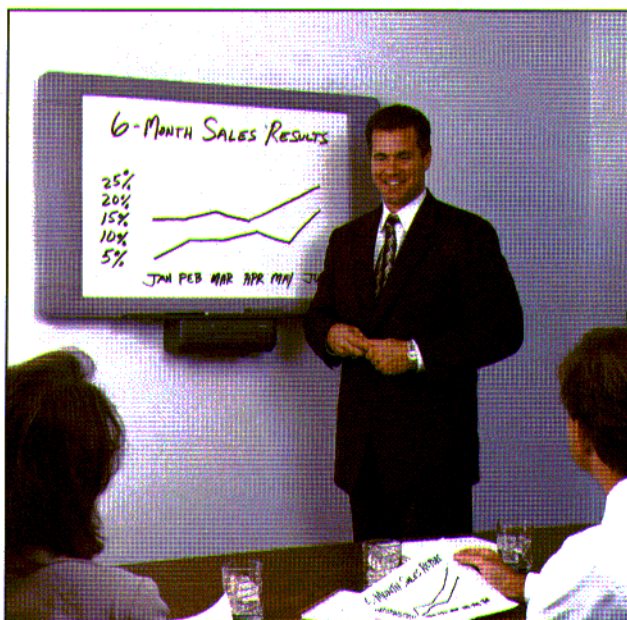

SUCCESSFUL MEETINGS, CONFERENCES & PRESENTATIONS

Two Outstanding Models:

- 2-panel, high quality white board surfaces
- Built-in thermal printer with anti-curl system
- Wall mounting and partition hanging hardware included
- Prints to 8 1/2" x 11" thermal roll paper

Wall Mount CP-1800:

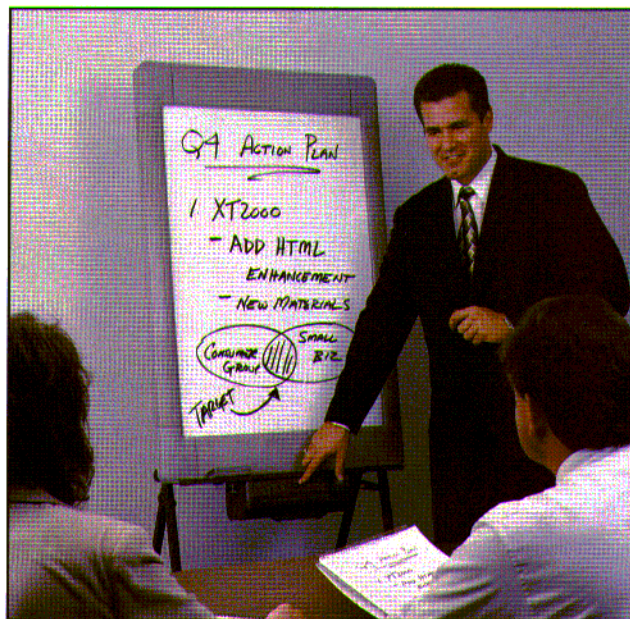

- Mounting Options:
 - Wall or partition mount – landscape position
- PC Link available as option (#PCICP2)

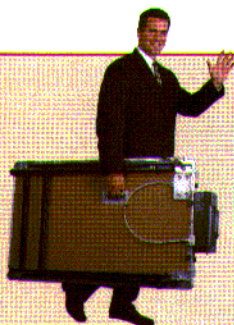

The CP-1800 can be mounted on a partition or wall, in landscape position only.

Portable w/easel CP-2000:

- Mounting Options:
 - Wall or partition mount – landscape position
 - Wall or partition mount – portrait position
 - Easel stand – portrait position (easel included)
- PC Link – Connect your board to a PC to capture your image

The perfect alternative to paper flipcharts. Fold-away easel stand included for fast and easy setup. Use the CP-2000 with easel in portrait position, or mount the board on a wall or partition, in portrait or landscape position.

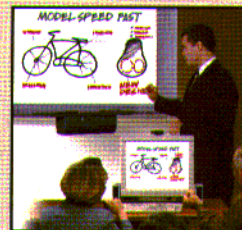

PC Link Kit

Allows you to capture your white board image onto your PC!

(Not necessary unless connecting to a PC)

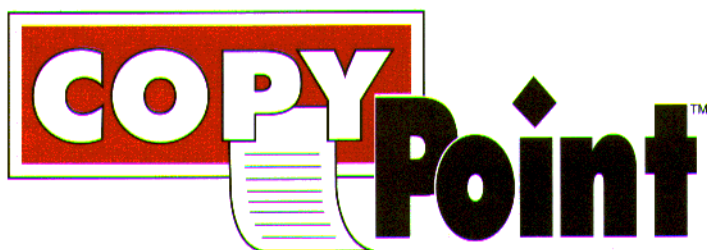

- PC Link software & cable included

Capture an image from the white board onto your PC and then file it, insert it into a presentation or attach it to E-mail. Stored as a graphic image.
