Complete pH & EC Control

Easy as 1, 2, 3

- **1** Easy to install! The mini Fertigator comes completely pre-assembled. To install the unit, simply attach two pipes and plug in the power cord.
- **2** Easy to use! The mini Fertigator uses a venturi to inject nutrients, so there are no high-maintenance peristaltic pumps to worry about!
- **3** Easy to grow! No more measuring and mixing! Automated dosing allows the grower to set precision dosing during vegetative and fruiting stages, maximizing harvest and profit!

Priced for growers of all sizes!

HI 5000 mini Fertigator
