MIDISPORT 1x1

1-In/1-Out USB Bus-Powered MIDI Interface

English

Quick Start Guide

MIDISPORT 1x1 Quick Start Guide

Midisport 1x1 works with Windows XP* and Mac OS X computers by simply connecting it to an available USB port. No additional driver software needs to be installed.

1. Connect the provided USB cable to Midisport 1x1 and to an available USB port on your computer.
2. Connect your MIDI keyboard's MIDI output port to the MIDI input port of Midisport 1x1.
3. Connect the MIDI output port of Midisport 1x1 to the MIDI input port of your keyboard, synthesizer or sound module.
4. Configure your MIDI capable music software to use Midisport 1x1 for incoming and outgoing MIDI messages (please check your software's documentation for instructions).

**Windows XP users who are planning to simultaneously use Midisport 1x1 with more than one application at the same time need to install the Multi-Client drivers found on the included CD-ROM.*

If needed, please check the full Midisport 1x1 User Guide on the included CD-ROM for more details.

WARNING: This product contains chemicals, including lead, known to the State of California to cause cancer, and birth defects or other reproductive harm. ***Wash hands after handling.***
