

CP30 WIRING

FILTER PUMP

TIMER Position:

Keep Switch in this position for normal system operation.

OFF Position:

Turns filter pump off (overrides delay circuit).

ON Position:

Turns filter pump on (for service purpose).

SPA SERVICE

AUTO Position:

Keep Switch in this position for normal system operation.

FILL Position:

Fills Spa from Pool (for service purpose only).

DRAIN Position:

Drains Spa into Pool (for service purpose only).

REMOTE CONTROL

To Operate Spa:

Turn **SPA Switch** to "SPA" position and **HEAT Switch** to "SPA" position.

To Switch Spa Off:

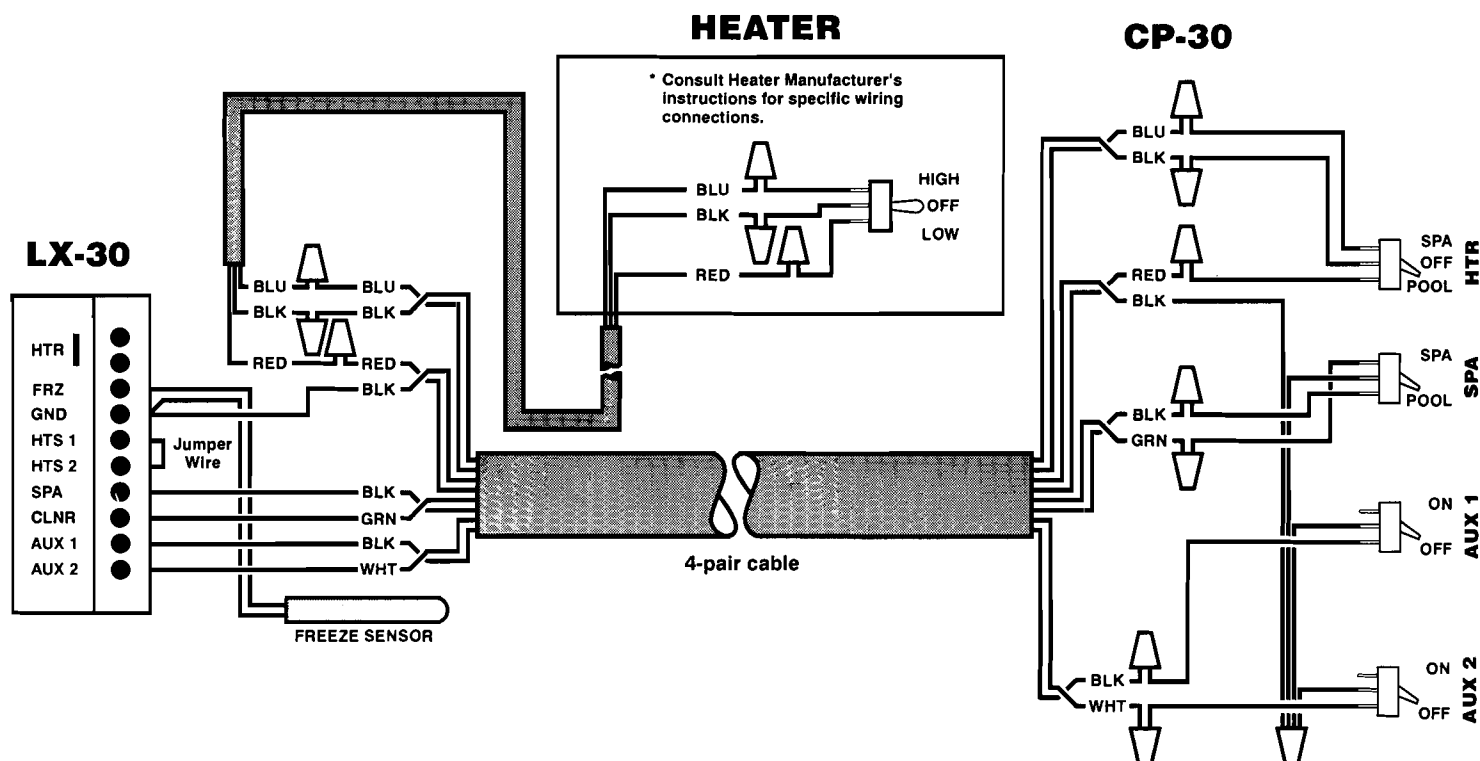

After use, turn **SPA Switch** to "POOL" and **HEAT Switch** to "POOL" (or OFF) position.

Cleaner Protection:

If your pool is equipped with a pool cleaner pump, the pump will automatically turn off whenever the spa is in use.

Auxiliary Functions:

AUX1 and **AUX2** Switches may be used to control additional equipment (such as pumps, lights, fountain, waterfall, etc.).
