

DJM-800 Mixer Mounting Plate Assembly Guide

1

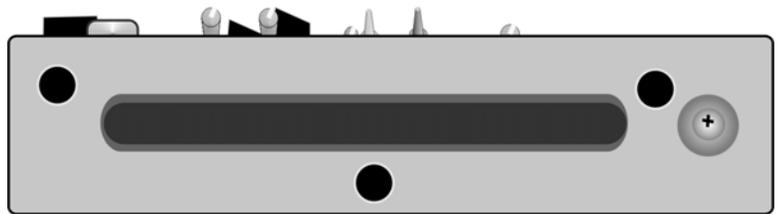

Locate the six (6) hole covers on sides of the DJM-800.

Note: The hole covers are textured circular patches. There are three (3) hole covers on the left side and 3 hole covers on the right side.

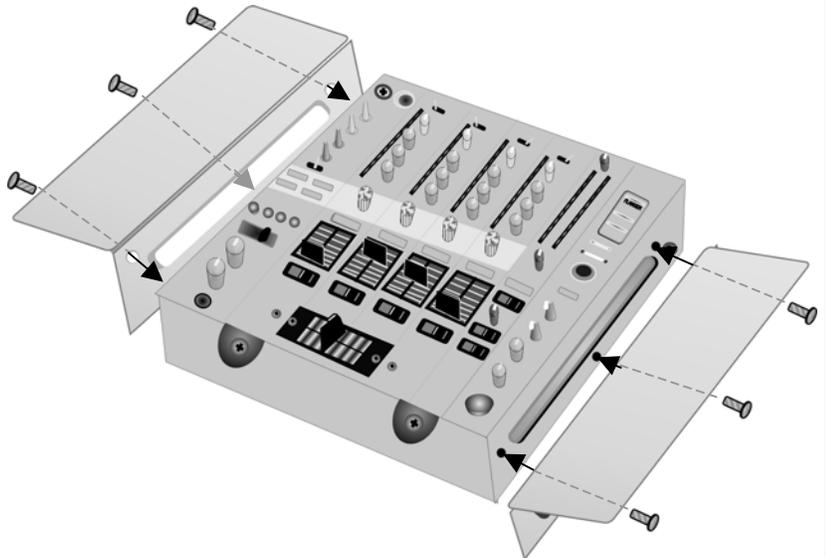

2

With a flat-head screwdriver, pop out the hole covers from both sides of the unit.

3

Position the screws under the top flap of the rack. Attach the rack ears using the screws supplied with the DJM-800.

For use in correct manner and safety of DJM-800, please thoroughly familiarize yourself with the "Operating Instruction Manual" of DJM-800. Pioneer Electronics (USA) Inc. may not be liable for imperfect installation and fitting, misuse, modification of product or for any damage caused by force.
