SERIOUS DANCE GEAR

Meet STEEZ, the first audio systems designed specifically for the emerging dance scene. By combining an exclusive set of dance features with Pioneer's renowned history in sound quality, STEEZ is able to unlock and extend the most important qualities dancers need to take their skill to the next level.

DANCE FEATURES *1

From the battle-hardened dance crew to a beginning student, STEEZ gives control like no other audio system available, personalizing the experience for practice, demos, or even full-on competition, including unique features such as:

Tempo Control: Ideal for practicing choreography, Tempo Control let's you adjust the tempo of any track without changing pitch.

Dance Cue: Practice makes perfect. Set a cue point anywhere in a song to go back to easily and at any time.

8-Beat Skip: Dancing is all about the beat, more specifically 8-counts. 8-Beat Skip let's the dancer rewind and fast forward by 8-counts, assuring the beat is never interrupted.

Auto Battle Mode: Automatically create group or 1-on-1 battles on the fly, complete with countdown and voice prompts

DJ Mix: Eliminates the need for a DJ. DJ Mix automatically puts together non-stop mixes by genre, complete with transition effects between tracks.

Dance Boost: Perfect for loud environments or when you have to keep the volume down without missing the beat, Dance Boost emphasizes instruments like the hi-hat and bass drum for a more pronounced beat.

Remote Control: An ultra-thin and compact remote insures all the control is conveniently in the dancer's hand. No need to run to and from the player.

AUDIO FEATURES

- Tweeters (25 mm x 2)
- Woofers (75 mm x 2)
- Dedicated Subwoofer (135mm)
- 40 Watts Total Power Output
