

# **RP170x Series**

## 300mA 10V Input LDO

The RP170x Series are CMOS-based LDO regulators featuring 300mA output current. Due to the 10V maximum input voltage, RP170x can be used for 2 cell lithium-ion battery powered portable appliances and home appliances. RP170x has a fold-back protection circuit, a thermal shutdown circuit and a constant slope circuit. SOT-23-5 and SOT-89-5 with high power dissipation packages are available.

#### **FEATURES**

- Supply Current (Iss) ......Typ. 23μA (V<sub>IN</sub>=SET V<sub>OUT</sub>+1.0V)
- Standby Current (Istandby) ·······Typ. 0.1μA (V<sub>IN</sub>=10V, CE="L")
- Dropout Voltage (VDIF) ······Typ. 0.77V (IOUT=300mA, VOUT=2.8V)
- Ripple Rejection (RR)·····Typ. 70dB (f=1kHz)
- Input Voltage Range (V<sub>IN</sub>)············2.6V to 10.0V
- Output Voltage Range (Vout) → 1.2V to 6.0V (internally fixed)
- Output Voltage Accuracy -----± 1%

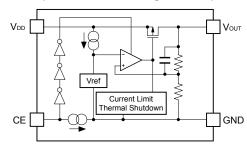

- $\bullet$  Temp. coeff. of Output Voltage ……Typ.  $\pm$  80ppm/°C
- Line Regulation .....Typ. 0.02%/V
- Fold-back Protection Circuit ..... Current limit Typ. 40mA
- Constant Slope Circuit
- Thermal Shutdown Circuit ······Stops at 165°C
- Auto-Discharge function ·····D Version
- Packages ......SOT-23-5, SOT-89-5
- $\bullet$  Ceramic capacitors can be used.  $\cdots 1 \mu F$  or more

(The above shows specification at Topt=25°C. Design assurance value at -40°C ≤ Topt ≤ 85°C is also available. For details, please refer to the datasheet.)

#### **BLOCK DIAGRAMS**

#### (With Auto-Discharge function)

#### **SELECTION GUIDES**

Halogen Free	Package	Q'ty per Reel	Part No.
H/F	SOT-23-5	3,000 pcs	RP170Nxx1*-TR-FE
H/F	SOT-89-5	1,000 pcs	RP170Hxx1*-T1-FE

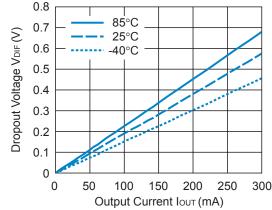

- xx : Specify the output voltage within the range of 1.2V (12) to 6.0V (60) in 0.1V steps.
- Select from (B) without auto-discharge function or (D) with auto-discharge function.

#### **PACKAGES (Top View)**

SOT-23-5	SOT-89-5
5 4	<u>ַ</u> בֿרַ בְּלַ
1 2 3	
1 V <sub>DD</sub>	1   Vоит
2 GND	2 GND
3 CE	3 CE
4 NC	4 NC
5 <b>V</b> оит	5 V <sub>DD</sub>

### **TYPICAL CHARACTERISTIC**

#### RP170x301x Dropout Voltage vs. Output Current

#### **APPLICATIONS**

- Power source for hand-held communication equipment and laptop personal computers
- Power source for digital SLRs and VCRs

- Power source for home appliances
- Power source for battery-powered equipment

No.EK-205-120403 CMOS LDO Regulator

- 1. The products and the product specifications described in this document are subject to change or discontinuation of production without notice for reasons such as improvement. Therefore, before deciding to use the products, please refer to Ricoh sales representatives for the latest information thereon.
- 2. The materials in this document may not be copied or otherwise reproduced in whole or in part without prior written consent of Ricoh.
- 3. Please be sure to take any necessary formalities under relevant laws or regulations before exporting or otherwise taking out of your country the products or the technical information described herein.
- 4. The technical information described in this document shows typical characteristics of and example application circuits for the products. The release of such information is not to be construed as a warranty of or a grant of license under Ricoh's or any third party's intellectual property rights or any other rights.
- 5. The products listed in this document are intended and designed for use as general electronic components in standard applications (office equipment, telecommunication equipment, measuring instruments, consumer electronic products, amusement equipment etc.). Those customers intending to use a product in an application requiring extreme quality and reliability, for example, in a highly specific application where the failure or misoperation of the product could result in human injury or death (aircraft, spacevehicle, nuclear reactor control system, traffic control system, automotive and transportation equipment, combustion equipment, safety devices, life support system etc.) should first contact us.
- 6. We are making our continuous effort to improve the quality and reliability of our products, but semiconductor products are likely to fail with certain probability. In order to prevent any injury to persons or damages to property resulting from such failure, customers should be careful enough to incorporate safety measures in their design, such as redundancy feature, firecontainment feature and fail-safe feature. We do not assume any liability or responsibility for any loss or damage arising from misuse or inappropriate use of the products.
- 7. Anti-radiation design is not implemented in the products described in this document.
- 8. Please contact Ricoh sales representatives should you have any questions or comments concerning the products or the technical information.

### RICOH COMPANY, LTD. Electronic Devices Company

■Ricoh presented with the Japan Management Quality Award for 1999.

Ricoh continually strives to promote customer satisfaction, and shares the achievements of its management quality improvement program with people and society.

■Ricoh awarded ISO 14001 certification.

The Ricoh Group was awarded ISO 14001 certification, which is an international standard for environmental management systems, at both its domestic and overseas production facilities. Our current aim is to obtain ISO 14001 certification for all of our pusiness offices.

Ricoh completed the organization of the Lead-free production for all of our products.

After Apr. 1, 2006, we will ship out the lead free products only. Thus, all products that will be shipped from now on comply with RoHS Directive.
