Getting Started with Your Apple Keyboard

Congratulations on purchasing the Apple Keyboard! Use this booklet to quickly set up and start using your new keyboard.

To use your keyboard and take advantage of the full range of features, you need Mac OS X v10.4.10 or later installed on your Mac.

Setting Up Your Keyboard

To set up your keyboard, plug the USB cable from your keyboard into an available USB port on your Mac, update your system software to Mac OS X v10.4.10 or later, and install the Apple Keyboard Software.

To check for updated system software:

- 1 Choose Apple () > Software Update from the menu bar.
- 2 Follow the onscreen instructions.

To install the Apple Keyboard Software:

- 1 Go to www.apple.com/support/downloads and download the Apple Keyboard Software.
- 2 Double-click the AppleKeyboardSoftware icon.
- 3 Follow the onscreen instructions.

Using Your Keyboard

Use the keys at the top of your keyboard to adjust the brightness of your display, open Exposé, view Dashboard widgets, control volume, and more.

Decrease (☼-) or increase (☼+) the brightness of your display.

Use Exposé All Windows to see all of the open windows on your desktop at once.

Open Dashboard to access your widgets and get information on the weather, stocks, and more.

Rewind or go to the previous song, movie, or slideshow.

Play or pause songs, movies, or slideshows.

Fast-forward or go to the next song, movie, or slideshow.

Mute the sound coming from the speakers or headphone port on your computer.

Decrease (◀) or increase (▶) the volume of sound coming from the speakers or headphone port on your computer.

Press and hold the Media Eject key to eject a disc.

Customizing Your Keyboard

You can customize your keyboard using the Keyboard pane of Keyboard & Mouse preferences.

To customize your keyboard:

- 1 Choose Apple (🍏) > System Preferences.
- 2 Click Keyboard & Mouse.
- 3 Click Keyboard or Keyboard Shortcuts.

Click Keyboard Shortcuts to assign shortcuts to menu commands in a Mac OS X application or in the Finder.

More information about your keyboard is available in Mac Help. Open Mac Help and search for “keyboard.”

Regulatory Compliance Information

Compliance Statement

This device complies with part 15 of the FCC rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See instructions if interference to radio or television reception is suspected.

L'utilisation de ce dispositif est autorisée seulement aux conditions suivantes : (1) il ne doit pas produire de brouillage et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

Radio and Television Interference

The equipment described in this manual generates, uses, and can radiate radio-frequency energy. If it is not installed and used properly—that is, in strict accordance with Apple's instructions—it may cause interference with radio and television reception.

This equipment has been tested and found to comply with the limits for a Class B digital device in accordance with the specifications in Part 15 of FCC rules. These specifications are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation.

You can determine whether your computer system is causing interference by turning it off. If the interference stops, it was probably caused by the computer or one of the peripheral devices.

If your computer system does cause interference to radio or television reception, try to correct the interference by using one or more of the following measures:

- Turn the television or radio antenna until the interference stops.
- Move the computer to one side or the other of the television or radio.
- Move the computer farther away from the television or radio.
- Plug the computer into an outlet that is on a different circuit from the television or radio. (That is, make certain the computer and the television or radio are on circuits controlled by different circuit breakers or fuses.)

If necessary, consult an Apple Authorized Service Provider or Apple. See the service and support information that came with your Apple product. Or, consult an experienced radio or television technician for additional suggestions.

Important: Changes or modifications to this product not authorized by Apple Inc. could void the FCC compliance and negate your authority to operate the product. This product was tested for FCC compliance under conditions that included the use of Apple peripheral devices and Apple shielded cables and connectors between system components. It is important that you use Apple peripheral devices and shielded cables and connectors between system components to reduce the possibility of causing interference to radios, television sets, and other electronic devices. You can obtain Apple peripheral devices and the proper shielded cables and connectors through an Apple-authorized

dealer. For non-Apple peripheral devices, contact the manufacturer or dealer for assistance.
