CLASS 1 LASER PRODUCT

CLASS 1 LASER PRODUCT

This Compact Disc player is classified as a CLASS 1 LASER product

Use of controls adjustments or performance of procedures other than those specified herein may result in hazardous radiation.

CAUTION-INVISIBLE LASER RADIATION WHEN OPEN AND INTER LOCK DEFEATED, AVOID EXPOSURE TO BEAM.

SPECIAL NOTICE

Warning:

- This unit contains no user serviceable parts. Never remove covers unless qualified to do so. This unit contains dangerous voltages, always remove main plug from the socket before any service operation and when not in use for a long period.

Important:

- This unit is designed for your enjoyment in your home. We cannot be liable for the quality of the unit if you use it for commercial use. So please do not use this unit for commercial use.

IMPORTANT NOTICE

NOTE TO CATV SYSTEM INSTALLER;

- This reminder is provided to call the CATV system installer's attention to article 820-40 of the NEC provides guidelines for proper the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

SAFETY INSTRUCTIONS

SAFETY INSTRUCTIONS

- Do not damage the power cord. Damage to the power cord may cause a fire or shock hazard.
- When unplugging the power cord, please hold by the plug and remove it carefully in standby mode.
- When you finish operating the unit, always turn off the power. Leaving a disc loaded for a long time with power turned on may damage the disc.
- When you insert the disc, please do not insert over another disc.
- This product should not be used in business applications.

WHEN MOISTURE CONDENSATION GETS IN THE UNIT

- When the unit is moved from a cold area to a warm area suddenly, moisture may condense on the mechanical parts which restricts the laser signal from normal operation.
- If this occurs, leave the unit with the power turned on for 1~2 hours. (without a disc)

SAFETY INSTRUCTIONS

READ INSTRUCTIONS

- All the safety and operating instructions should be read before the appliance is operated.

RETAIN INSTRUCTIONS

- The safety and operating instructions should be retained for future reference.

HEED WARNINGS

- All warnings on the appliance and in the operating instructions should be adhered to.

FOLLOW INSTRUCTIONS

- All operating and use instructions should be followed.

WATER AND MOISTURE

- Do not use this video product near water—for example, near a bathtub, wash bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, and the like.

OVERLOADING

- Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.

VENTILATION

- Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the video product and to protect it from overheating these openings must not be blocked or covered. The openings should never be blocked by placing the video product on a bed, sofa, rug, or other similar surface. This video product should never be placed near or over a radiator or heat register. This video product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been followed.

POWER CORD PROTECTION

- Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the appliance.

CLEANING

- Unplug this video product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

LIGHTNING

- For added protection of this video product receiver during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the video product due to lightning and power-line surges.

OBJECT AND LIQUID ENTRY

- Never push objects of any kind into this product through openings as they may touch dangerous

voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the video product.

ACCESSORIES

- Do not place this video product on an unstable cart, stand, tripod, bracket, or table. The video product may fall, causing serious injury to a child or adult, and serious damage to the appliance. Use only with a cart, stand, tripod, bracket, or table recommended by the manufacturer, or sold with the video product. Any mounting of the appliance should follow the manufacturer's instructions and should use a mounting accessory recommended by the manufacturer.

CART

- An appliance and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the appliance and cart combination to overturn.

POWER SOURCES

- This video product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of supply to your home, consult your appliance dealer or local power company. For video products intended to be operated from battery power, or other sources, refer to the operating instructions.

POWER LINES

- An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

POLARIZATION

- This video product is equipped with a polarized alternating current line plug (a plug having one blade wider than the other.) This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.

OUTDOOR ANTENNA GROUNDING

- If an outside antenna is connected to the antenna terminal, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges.
- In the U.S.A section 810 of the National Electrical Code, ANSI/NFPA No. 70-1984, provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. See the figure below.

ATTACHMENTS

- Do not use attachments not recommended by the video product manufacturer as they may cause hazards.

SERVICING

- Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards.
- Refer all servicing to qualified service personnel.

REPLACEMENT PARTS

- When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or having the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock or other hazards.

SAFETY CHECK

- Upon completion of any service or repairs to this video product, ask the service technician to perform safety checks to determine that the video product is in proper operating condition.

DAMAGE REQUIRING SERVICE

- Unplug this video product from the wall outlet and refer servicing to qualified service personnel under the following conditions.
 - a. When the power-supply cord or plug is damaged.
 - b. If liquid has been spilled, or objects have fallen into the video product.
 - c. If the video product has been exposed to rain or water
 - d. If the video product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the video product to its normal operation.
 - e. If the video product has been dropped or the cabinet has been damaged.
 - f. When the video product exhibits a distinct change in performance - this indicates a need for service.

CARE OF DISCS

Use a soft, dry cloth for cleaning.

Clean the disc with water diluted with neutral detergent solution and wipe from inside to outside using dry cloth.

Store a disc away from direct sunlight or heat source.

Keep the disc free from dust.

CARE OF PLAYER AND DISCS

Cleaning the Player

- Use soft cloth or the dusting attachment of your vacuum cleaner to dust the exposed surface of the player.
- Use the vacuum cleaner attachment to remove dust from the ventilation holes on the top, back, sides, and bottom of the cabinet.

- Some of plastic surfaces are easily scratched, and they can be marred by alcohol and various solvents. Avoid excessive use of oil-based furniture polishes since the materials used in the cabinet are non-porous and the residue will accumulate more dust.

CARE OF DISC

Handling Discs

- When loading or removing discs, do not touch the playing surface.

DO NOT PLAY CRACKED OR WARPED DISCS.

-Never play cracked, scratched, or warped disc.
This may damage the player cause it to malfunction.

SPECIFICATIONS

GENERAL SPECIFICATIONS			-Power consumption: 8.5W -Weight: 3.7 kg -Dimensions 420 (W) x334(D) x 111 (H) mm -Operating temperature: +5°C~+35°C (41°F~95°F)
DISC USABLE			NTSC/PAL
CD	12cm	single	74 min
	8 cm	single	20 min
VCD	12cm single	Audio + Video	74 min
VIDEO OUTPUT			-Output level: 1Vp-p (for 75 ohm load) 1channels
AUDIO OUTPUT			-2 Channels (L/R) -Output level1: 2 Vrms (1KHz, 0 dB) -Output level2: 0.5 Vrms (1KHz, 0 dB) -Audio characteristics: frequency response: 20Hz-20KHz Signal to Noise: 85dB total harmonic distortion: 0.1%(at 1KHz, 0dB)
