PHILIPS

HP 2715 LADYSHAVE AQUA WET & DRY BATTERY WITH BODYSELECT

This battery ladyshaver is designed to give a more comfortable and smoother shave for all parts of the body. This cordless ladyshaver can be used in the shower as well as dry (Wet & dry) and it even takes the different types of hair and skin of underarms, bikini line and legs into account (Bodyselect). The "wave" shape has been developed for ease of handling. The ladyshaver comes with protection cap, brush and pouch.

FEATURES

WET & DRY

- cordless, watertight design for safe use in the shower or bath
- can be used in combination with ordinary water, regular soap or (shaving) foam
- can also be used on completely dry skin

BODYSELECT SHAVING SYSTEM

- the shaving system consists of two trimmers and an adjustable shaving foil, offering two settings:
 - * the upper setting is designed for underarms and bikini line. The small round holes in the shaving foil give a close and smooth shave without skin irritation on sensitive skin.
 - * the lower setting is designed for legs. The bigger oval holes in the shaving foil give optimal closeness on normal skin.

OTHER

- operates on 2 AA batteries
- a minimum of 45 minutes shaving time (alkaline batteries)
- wave shape for easy handling, also in hard-to-reach places
- suppressed against radio and TV interference
- lock button, incorporated in the Bodyselect switch, prevents the ladyshaver from accidentally being switched on during e.g. travel
- shaving head can be removed for easy cleaning under the tap or shower
- cleaning brush
- protection cap
- compact travel pouch
